NAGANO Campus

**Learning in a city with rich in nature,
and the full of urban functions**

Nagano Campus is located in the middle of Nagano Prefecture. Nagano Campus has a lot of natural resources like Cherry blossom in Spring, maple leaves in Autumn and snow in Winter. You can enjoy a lot of activities here which you can not experience in the capital city of Japan, like mountain climbing, ski sports and a lot of hot springs. There also a lot of activities and events which you can participate and interact with Japanese people. It is only 72 minutes away from Tokyo by Shinkansen, cost of living is reasonable and everyone can live securely during their student life. (Principal Takashi Hatada)

**The place where you can concentrate on your studies,
and an advantage for low-cost of living.**

(VIET NAM)

A city with full of urban functions

Within just 10 minutes from your house you will find places that are necessary for living such as large supermarkets, schools, hospitals and convenience stores. It is the best place for concentrating on your studies since the city itself is peaceful and beautiful.

Zero transportation fee, Cheap room rental !

There will be no transportation cost since you'll be able to move around the city using your bicycle. And the most important thing is that the cost of living is cheap. Compared to apartment rentals in big cities, the rent here is less than half the amount.

TOKYO Campus

Learn in a city where modern and traditional culture blends

Tokyo Campus is located in Ryogoku, only 15 minutes away from Tokyo Station. It is just a 5-minute train ride to the world's famous Akihabara. Near Ryogoku there is the historic Asakusa, Ryogoku Kokugikan famous for Sumo Wrestling, and Edo-Tokyo Museum. Also, you can go to the Tokyo Skytree on foot.(Principal Shinichiro Tokoku)

If you want to experience cutting-edge culture and lifestyle, then Tokyo is the best for you.

A blend of traditional and modern culture

Tokyo is a big city. Ryogoku where the school is located there are traditional street landscapes where you can feel the tradition of Japan. There are nearly 20 nationalities at the school and you will be able to experience a world you are not familiar with when you interact with them.

To my favorite Akihabara

I often go to Akihabara after school. It is only 5 minutes and 2 stations away by train from Ryogoku. It is really a convenient town since you can immediately go to other places by train.

How is Japan?

I graduated from Nagano Campus. Before I came to Japan, My first thought that Nagano was country side, and it was very different from Thailand's country side. There a lot of big shopping malls and supermarkets in the area. The air is very clean and the water is very safe and delicious.

How was your Japanese study ?

The conversation and JLPT classes helped me a lot. When I first came here I was just a beginner, but I was able to reach a level where I can speak with graduate school professors and write a thesis in Japanese. JLPT helps you in University preparations, and also when searching for a job in Thailand. Studying at MANABI was completely satisfying.

Also the teachers in MANABI are very funny! They are also very kind! The students and teachers are very close and that is why I was able to spend a safe and secure student life.

How did you pass graduate school ?

The teachers guided me on a 1-to-1 basis from the very first day to the last. I thought being accepted from a different field from I studied before would be difficult but the teacher's encouraged me a lot and said "I will support you all the way so let's do our best! You can do it!" Then, I could pass a exam easily.

Passed N2 within 1 year starting from 0 level

How is Japan?

I am a student of the Nagano Campus. Before I went to Japan I thought "Nagano is a country side?", but it has a big difference with Indonesia's province.

There are a lot of shopping malls, modern supermarkets and facilities. The air is clean and tap water is safe to drink and delicious.

How is your Japanese study?

Particularly, conversation and JLPT classes are very helpful. At first I was put in the beginners class, but thanks to the effective lessons I was able to pass JLPT N2 within just a year. Studying in MANABI is very good, since JLPT is very useful for university or vocational school entry and also for employment when going back to Indonesia. Also, the teachers are interesting and kind! They are close to the students and that is why you can live with a peace of mind.

How is MANABI's learning system?

Classes have students from different countries, in my class, there were students from six different countries. The teachers are very patient and they teach us until we understand everything perfectly.

How is MANABI Tokyo Campus?

The attraction of MANABI Tokyo campus is in its location. When I was still in Sweden, I was very interested in Japanese traditional culture and pop culture. You can still feel the traditional atmosphere in Ryogoku as well as the closely located Asakusa, the pop culture city is Akihabara is also close.

How is life in Japan?

I have a part-time job as an English teacher for children when there is no Japanese classes, I am very fortunate that I am able to do a part-time job in my favorite field. There are lot of part-time job opportunities like this around Tokyo.
