

●光源を一つに設定する (図解「アソビの図解」巻末)

画面上で複数の光源を同時に使うことはよくあります。その結果として、その光源によって、物体の表面の凹凸がよりよく表現されるようになります。また、光源の位置によって、物体の影の長さや向きも変わります。これは、光源の位置と物体の位置との関係によって決まっています。アソビの図解巻末の図解を参考にしてください。

●基本的な形の見え方 (図解「アソビの図解」巻末)

図解巻末の図解を参考に、自分の手で、自分の目から見た立方体の見え方を観察してください。その結果、立方体の見え方が変わります。図解巻末の図解を参考に、自分の目で見た立方体の見え方を観察してください。

TORIN SCHOOL OF ARTS & DESIGN

As art and design are expanding their sphere of activity in society, art universities are seeking a wider range of human resources, and the criteria for entrance examinations are beginning to place more emphasis on criteria other than technical skill. Since its establishment, TORIN SCHOOL OF ARTS & DESIGN has been constantly searching for ways to effectively prepare students for the entrance examinations within the limited time available. As a result, for the past several years, our acceptance rate to art universities has been the highest in Japan.

Comprehensive Course

Through sketching, students will learn basic expressive skills and the characteristics of Japanese expression. This course is recommended for students aiming for vocational schools or those with limited experience in art. 10 hours per week will be devoted to the completion of one work of art. At the end of the course, students will be critiqued in class and their work will be explained in Japanese.

Famous University Preparatory Course

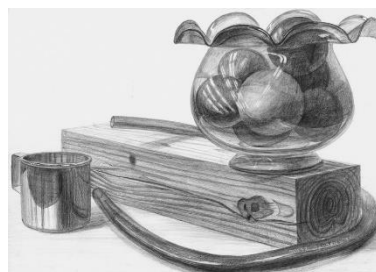

This course is dedicated to art classes with the goal of gaining admission to a prestigious university. Students can practice for interviews, receive guidance on essays, and prepare for practical examinations.

Students receive 200 hours of practical skills instruction per semester for 6 months, and classes are offered even on days when there are no Japanese language classes, allowing students to concentrate on art.

Graduate School Preparatory Course

This course is designed to help students practice interviewing and receive guidance on creating their own portfolios in order to be accepted into graduate school. You will receive two days a week, two hours a day of solid instruction.

Special Preparatory Course for Art University by subject

HOURS		MON	TUE	WED	THU	FRI	
J A P A N E S E	first period (100mins)	JLPT preparation	Japanese for Art		JLPT preparation	Art Expression	JLPT preparation

My name is WANG QINYUE. Thanks to the guidance of my art teachers, I was able to enter Tama Art University. After studying for a year in the famous university preparatory course, my dream has finally come true. I could not be happier.

All of the art teachers are seniors who graduated from famous art universities and have a great deal of experience in teaching. They are also experts in entrance examinations, so I can receive practical guidance and career advice with peace of mind.

Art classes are located at the school, so students can attend art classes as soon as Japanese classes are over, or they can study on their own when they have time. It is very convenient because I can work whenever I want.

The art teachers are enthusiastic and can give you tips on how to take the exam in easy-to-understand language. If I have any problems, I can always consult with the teachers, which is very reassuring because I don't have to worry alone.

In addition, not only international students but also Japanese junior high and high school students participate in art classes. It is very fun because I can make friends with Japanese students and study together with them.

Everyone, join the art course to make your dreams come true!

My name is CAI FENGSHENG, I am an international student from Shanghai, China, currently attending graduate school at Tama Art University. I am an international student from Shanghai, China, currently attending the graduate school of Tama Art University, and a graduate of MANABI Language School. The relationship between teachers and students is very good. In class, our teachers are very humorous and teach us what we need to know. The atmosphere in the classes is very bright and the students actively participate in the classes. Even after class, the teachers are like friends, talking with students and helping them with any questions they have about the class or about their higher education.

My homeroom teacher checked all of my application materials and personal documents to help me achieve my goal of getting into graduate school. They also proofread my portfolio repeatedly for mistakes, etc. They patiently guided me to express myself in my own words as much as possible. They also gave me many practice interviews. It was thanks to their guidance that I was able to pass the exam. I am really grateful to them. Thank you so much!
